C1000+ BIOFLAVONOIDS is the source of four remarkable ingredients: Vitamin C, Rose Hip Extract, Grape Seed Extract and Hesperidin. The formula delivers 1000 mg Vitamin C. Besides the several known beneficial effects of Vitamin C, we emphasize that it contributes to the normal function of the immune system, to the reduction of tiredness and fatigue, to normal energy-yielding metabolism and to the protection of cells from oxidative stress. In higher doses Vitamin C also helps to maintain the normal function of the immune system after intense physical exercise (the beneficial effect is obtained with a daily intake of 200 mg in addition to the recommended daily Vitamin C)! Rose Hips are the fruits of Rosa canina (dog rose) and are widely used in traditional medicine. The polyphenols in Grape Seed extract have great anti-oxidant properties! Hesperidin is a citrus bioflavonoid found primarily in citrus fruits. Bioflavonoids are potent polyphenol antioxidants that help protect from free radical damage. Citrus bioflavonoids and their metabolites may contribute to cardiovascular health by minimizing free radical damage and promoting capillary integrity.In plant-based vegetarian capsules that are also acid protective - designed for optimal delivery of active ingredients!

Storage conditions: Store in a cool, dry place. Heat and sunlight may damage the bottle!

Best before end: see on packaging. (MM/YYYY)
Batch number: see on packaging.
